What is Menutuer

Menutuer is a contactless QR code menu that is safer, faster, and more efficient than traditional print menus. With Menutuer, you can add and manage unlimited menus without any need for an outside app. Your customers can easily access all your menus in one place just by scanning the QR code without downloading anything.

Benefits

UNLIMITED MENUS

No need to use multiple paper menus anymore, you can create unlimited, multilingual menus and manage them all in one.

COMPLETE CONTROL

Each item and menu can be activate/deactivated, updated and removed at anytime, which means you can the full control of your menus.

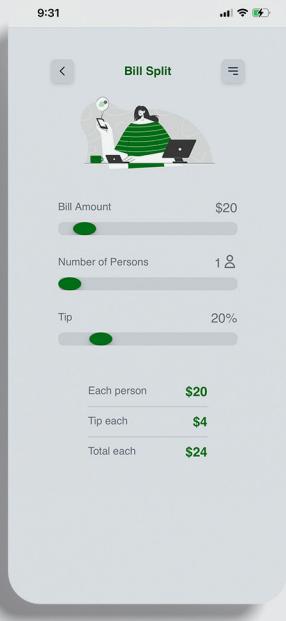

BEST USER EXPERIENCE

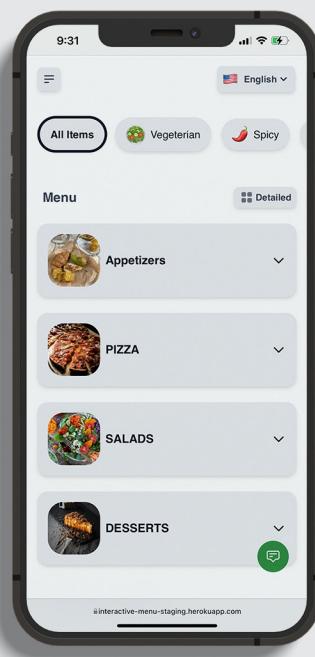

Anyone can see your menus on their phone, no need to wait, it would be contactless and sanitized. They can like the items, leave a comment and also share your restaurant.

Unlimited Menus

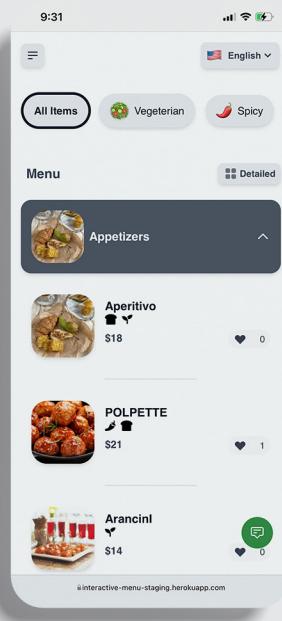

Add And Manage Unlimited Menus

Add Unlimited Items To Each Menu

Add More Than 12 Details And Image To Each Item

With our interactive e-menus, we offer the unique advantage of unlimited menus, allowing restaurant and bars owners to create and show an extensive range of interactive e-menus. This means that restaurants can create as many menus as they need, without any limitations or restrictions.

Within each menu, restaurant owners can add an unlimited number of items, allowing them to comprehensively represent their entire range of dishes, beverages, and specials. This flexibility ensures that customers have a wide variety of options to choose from, and it enables restaurants to effectively display their culinary offerings in a comprehensive and organized manner.

Moreover, each item can be enriched with up to 8 details, such as descriptions, ingredients, photo, calories, or any other relevant information. This level of detail helps customers make informed decisions and enhances their overall dining experience.

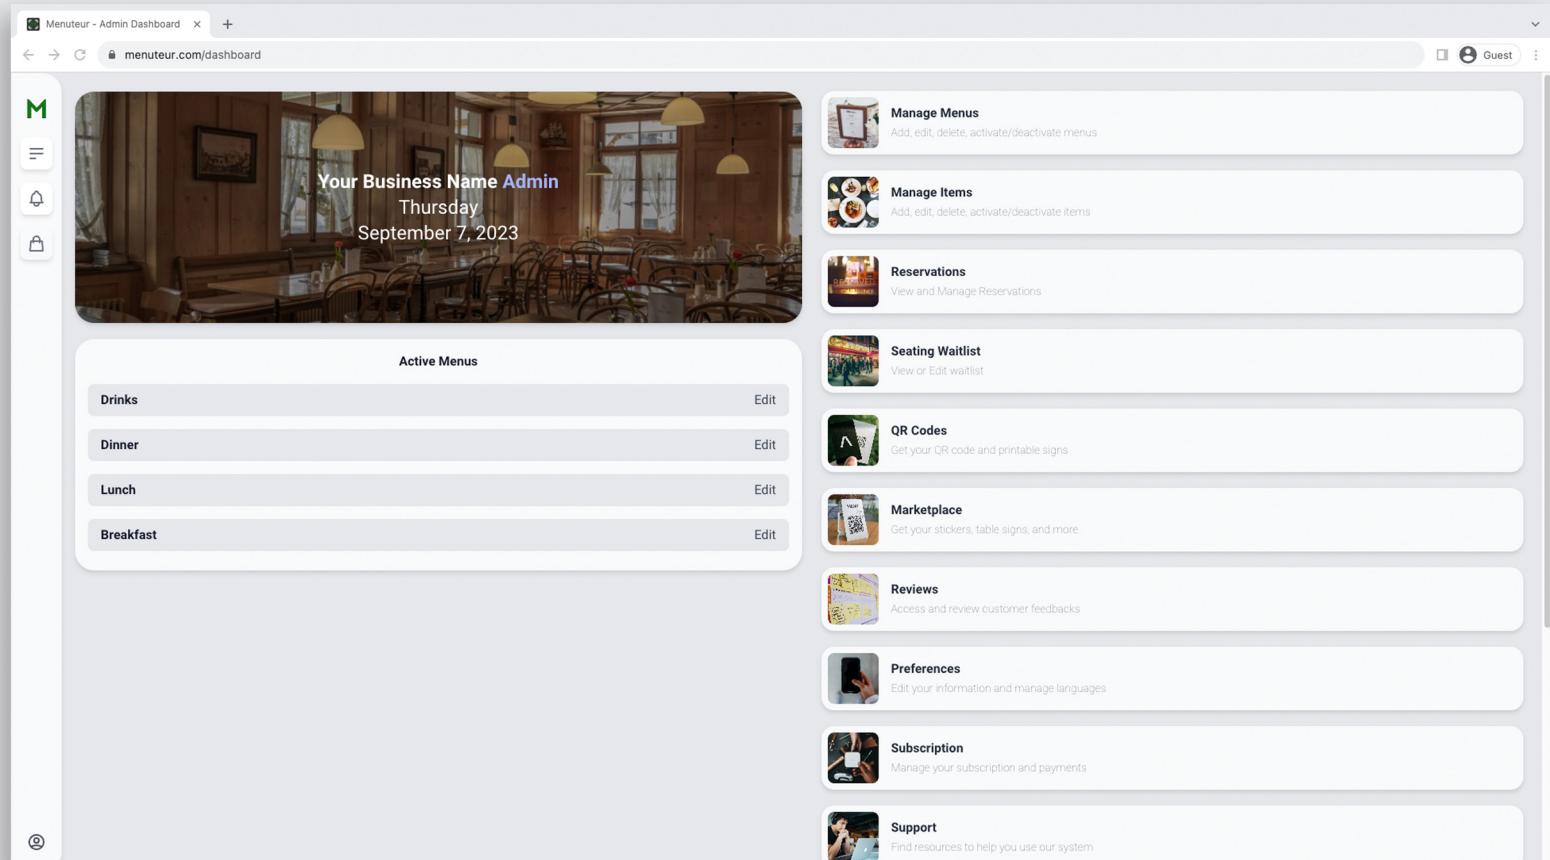

Additionally, our platform allows restaurants to divide their menus into different sections, such as appetizers, main courses, desserts, or beverages.

The screenshot shows the Menuteur Admin Dashboard. At the top, it displays "Your Business Name Admin" and the date "Thursday September 7, 2023". On the left, there's a sidebar with icons for Home, Reports, Notifications, and Help. The main area features a large image of a restaurant interior. Below it, a section titled "Active Menus" lists "Drinks", "Dinner", "Lunch", and "Breakfast" with "Edit" buttons. To the right, there are ten cards with icons and descriptions: "Manage Menus" (Add, edit, delete, activate/deactivate menus), "Manage Items" (Add, edit, delete, activate/deactivate items), "Reservations" (View and Manage Reservations), "Seating Waitlist" (View or Edit waitlist), "QR Codes" (Get your QR code and printable signs), "Marketplace" (Get your stickers, table signs, and more), "Reviews" (Access and review customer feedbacks), "Preferences" (Edit your information and manage languages), "Subscription" (Manage your subscription and payments), and "Support" (Find resources to help you use our system). At the bottom right, it says "Menuteur Dashboard".

Menu Management Excellence:

Effortlessly create and organize unlimited menus with sections and filters. Tailor your offerings to different occasions and preferences, ensuring a delightful dining experience.

Reservation

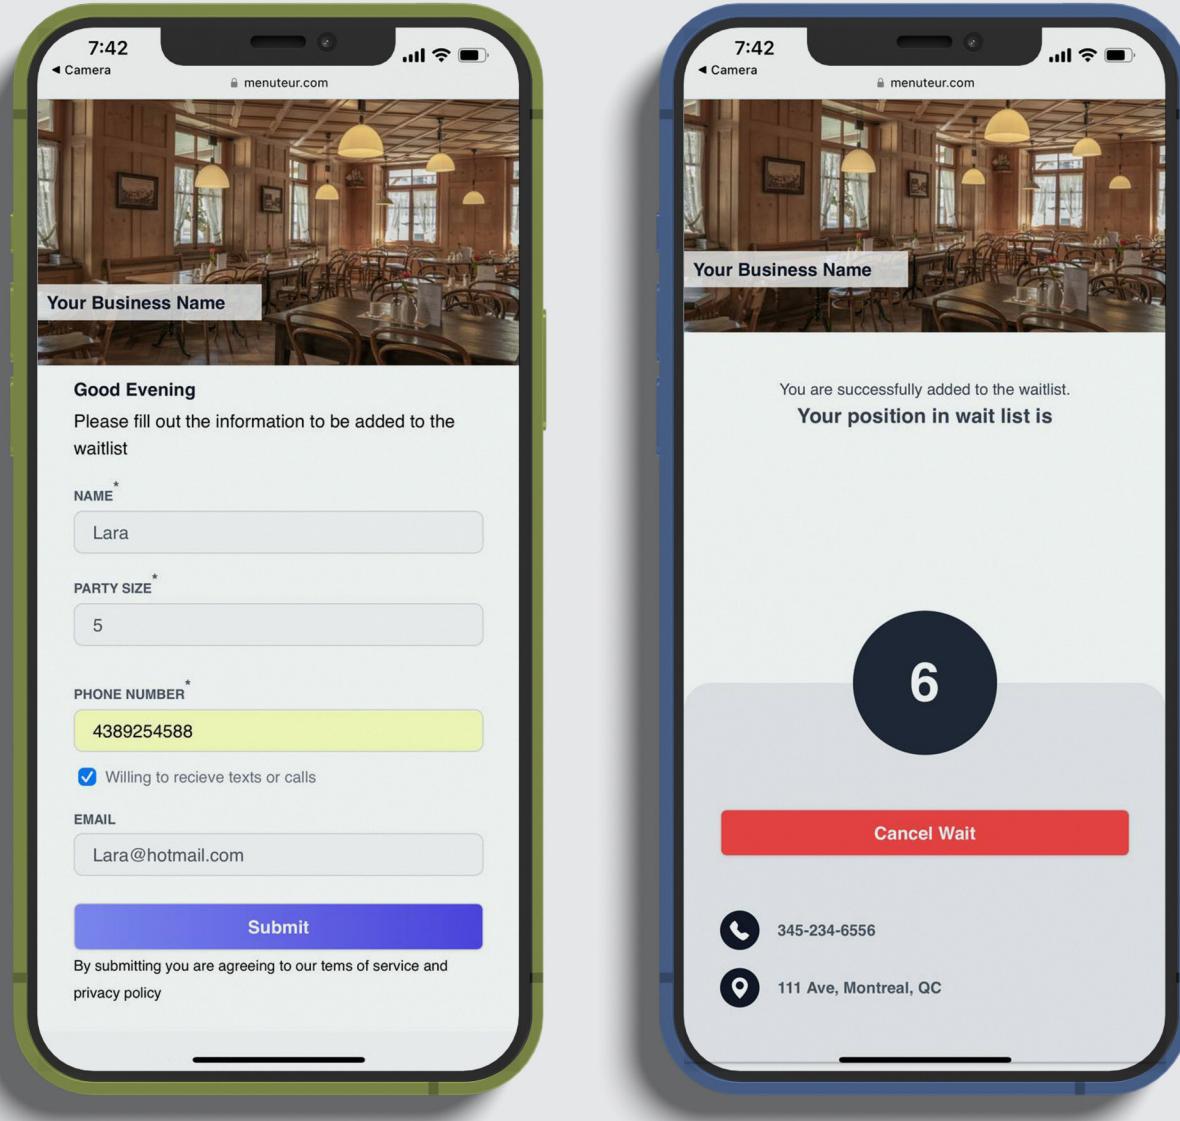

Simplifying restaurants reservations with Menuteur

Menuteur interactive e-menu includes a reservation feature, allowing customers to reserve a table conveniently. By accessing the restaurant's interactive e-menu, customers can provide their name, contact information, and party size to request a table reservation. Once the reservation request is submitted, customers receive a confirmation message indicating that their request has been received.

Restaurant staff members can view these reservation requests through their account on Menuteur. They have the option to accept or decline the reservation based on availability. After a decision has been made, another message is sent to the customer, notifying them of the outcome of their reservation request. Additionally, customers can stay updated on the status of their reservation through the e-menu.

Restaurants have the flexibility to enable or disable this reservation feature on their interactive e-menu as needed. This allows them to manage reservations efficiently according to their operational requirements.

Waitlist

Streamline Your Seating Waitlist

Introducing Menuteur Waitlist, the easy and efficient solution for managing your seating waitlist. Menuteur Waitlist System simplifies the process by allowing customers to effortlessly join the waitlist with a simple scan of a QR code. No more manual sign-ups or wasted time standing in line. With just a few taps on their smartphone, customers can secure their place in the waitlist and comfortably wait for their turn.

But the convenience doesn't stop there. As tables become available, Menuteur provides real-time updates to customers, keeping them informed about their seating status. This eliminates any confusion or uncertainty and ensures a smooth and organized seating process. Your customers will appreciate the transparency and efficiency of Menuteur, resulting in a more satisfied and loyal customer base.

Menuteur is designed to adapt to your specific needs. Whether you run a bustling restaurant, a trendy bar, or a popular event venue, Menuteur can handle the demands of any high-volume establishment.

Customizable Templates

The screenshot shows the Menuteur customization interface. On the left, there's a sidebar with icons for a list, a bell, a shopping bag, and a user profile. The main area has a title 'Customization Bar' with a large green 'M'. Below it are four color selection sections: 'Primary Color' (hex #F0A0A0), 'Secondary Color' (hex #E0B0A0), 'Primary Font Color' (hex #A0D0C0), and 'Secondary Font Color' (hex #A0C0D0). There are also two buttons: 'Add Your Photo' and 'Add Your Logo'. To the right is a 'Preview' section showing a thumbnail of the e-menu template. The template features a yellow header with an 'Appearance' button and an 'English' dropdown. It includes a photo of a restaurant interior, a 'Promotions' section with a sandwich icon and '25% Off On Our Sandwiches' text, a 'Menus' section with 'Dinner' (32 items), 'Breakfast' (20 items), and 'Drinks' (16 items) options, and a yellow footer.

Customize Your Menu, Your Way!

Our interactive e-menu makes it easy for business managers to customize their menus. Here's how you can personalize your menu:

- 1. Choose Colors:** Select colors that match your business style and atmosphere. Pick colors that reflect your brand and create a pleasant visual experience.
- 2. Font Color Customization:** Customize the color of the text on your menu for easy reading. Ensure it contrasts well with the background to provide clarity and make it simple for customers to browse.
- 3. Add Your Business Logo:** Strengthen your brand by adding your business logo to the e-menu. This helps customers recognize your establishment and creates a professional touch.
- 4. Highlight Your Business:** Upload an image of your business interior or exterior to give customers a glimpse of your inviting ambiance. Let the photo show the unique atmosphere of your business.

Menuteur FAQ

1. How can I create my e-menu on Menuteur?

To create your e-menu, simply create your account on the Menuteur website, and once in your dashboard, you'll have access to all the features to start building your menus.

2. What hardware and software do I need to use Menuteur?

There is no need to download anything, users can simply scan the QR code with their phone and the link to the menu will pop up. No matter what kind of phone they are using, they can access your menu.

3. How does Menuteur benefit my restaurant?

With Menuteur, you can have unlimited menus, manage them all in one place, and provide customers with easy access, while also collecting valuable feedback for continuous improvement.

4. What type of customer support do you offer?

We offer a user-friendly support system accessible through your account dashboard. You can send a message to our support team, and you can expect a response within one business day.

5. How can I have access to my QR codes?

Within your dashboard, you'll find a dedicated section where you can conveniently download your QR codes for both your e-menu and waitlist. Additionally, we provide templates that incorporate your business contact information and QR codes for your e-menu. You can download these templates to use as table toppers, flyers, and more, making it easy for your customers to access your digital menu and join your waitlist.

6. How can I add a new language to my e-menu?

You can effortlessly introduce a new language to your e-menu through the preference section in your dashboard. Then, for each menu item, you can easily input the item's information in the newly added language, ensuring a multilingual and inclusive experience for your customers.

7. Is there any plan to use the same e-menu in multiple locations?

Yes, we have plans to support the use of the same e-menu across multiple locations. To enable this feature and manage the same account in different locations, please reach out to our support team. They will provide you with detailed information on how to implement the same menu with distinct management for each of your restaurant locations.

8. What is Menuteur virtual business card?

Menuteur's virtual business card is a dedicated page within your e-menu. It showcases your restaurant's essential information, including your business address, contact details, and links to your social media profiles. This feature allows your customers to easily share your restaurant's information with others, promoting your business and enhancing your online presence.

9. Is there a cancellation policy for my subscription?

Absolutely, you have the freedom to cancel your subscription at any time, offering flexibility to adapt to your needs.
